MEMORANDUM FOR: Director of Central Intelligence

FROM   : Sayre Stevens
                  Deputy Director for Intelligence

SUBJECT   : Questions which Arose during Your Discussion
                  with Secretary Califano on 28 June 1977

1. Action Requested: None; for your information only.

2. We have supplied [   ] with several items for his   25X1
meeting with Secretary Califano's Executive Assistant today. Our
Office of Scientific Intelligence (OSI) does not, nor does any other
Agency component to our knowledge, maintain information files on inter-
national health organizations and US-USSR health exchange programs.

3. The US/USSR agreement for cooperation in medical science and
public health, and artificial heart research and development involves
joint projects in cardiovascular diseases, artificial heart, malignant
neoplasia, chemotherapy of tumors, environmental health, arthritis,
and organic basis of schizophrenia. This agreement will be up for renewal   25X1
during 1977. We believe this to be a genuine agreement.
